

Gilbert Michael Jay Silmaro

Technical Lead Consultant | Software Engineer

gmjsilmaro03@gmail.com | github.com/GMJSilmaro | gmjsilmaro.dev

PROFILE

Technical Lead Consultant and Software Engineer with 5+ years building fullstack web and mobile systems, SAP Business One integrations, e-Invoice platforms, APIs, databases, Docker, and CI/CD. I lead delivery, mentor teams, and ship production software for enterprise clients.

EXPERIENCE

Technical Lead Consultant

Pixelcare Consulting | Remote | 2026 - Present

- Lead technical delivery across concurrent client projects
- Own architecture, mentoring, code review, and release quality
- Manage Docker, Traefik, CI/CD (GitHub Actions), PostgreSQL, and Redis

Software Engineer

Pixelcare Consulting | Remote | 2023 - 2026

- Built Field Service Management web portal and technician mobile app
- Developed e-Invoice middleware for LHDN-aligned tax workflows
- Delivered REST APIs and enterprise system integrations

Web Developer

Blue Ocean Data Solutions | On-site | 2023

- Migrated legacy applications to production ASP.NET systems
- Implemented auth, reporting, dashboards, and business workflows

Fullstack Developer

Eonbotz Technology | On-site | 2021 - 2023

- Delivered school management and parent/student portals end to end
- Mentored web developers and owned timelines and documentation

Freelance Developer

Independent | Remote | 2021 - 2023

- Built Laravel/Vue and TALL-stack applications for private clients
- Shipped biometric events platform and marketing/auth interfaces

SELECTED WORK

e-Invoice Middleware

Compliance middleware for automated tax workflows, invoice processing, ERP integration, and reporting.

Field Services Management (Web + Mobile)

Operations portal and React Native app for scheduling, dispatch, job tracking, signatures, and offline-friendly field workflows.
